

EDNET Faculty Training and Delivery

This document best viewed electronically to utilize html links

We have received a request to cut down on in-person, overnight training activities wherever possible. We have also been tasked to come up with an Action Plan to continue to deliver such training. I have chosen two methods of training delivery. 1) **Synchronous** or Face-to-Face Delivery. And, 2) **Asynchronous** or online mode using "Podcast-MPEG 4" display and several important documents for reading and review.

Synchronous and Asynchronous Delivery:

- ✓ If you live within 100 miles of Salt Lake City Face-to-Face EDNET training to your school will continue to be delivered.. If, you are beyond that distance (from SLC), you will want to do your training online or "asynchronously", reducing costs wherever possible. See flow sheet below.
- ✓ The USOE Trainer will coordinate training of faculty for Distance Education positions with UEN Distance Education Specialists (Sheryl Hulmston, Charice Black—Technical Training is their specialty). See <http://www.schools.utah.gov/edtech/ednet/training/training.htm>.
- ✓ All prospective EDNET/IVC teachers will need to communicate with Mr. Miller to fill out Registration materials, teacher names and biographical information will continue to be added to the EDNET Faculty Training Database and receive orientation and direction to the website <http://www.schools.utah.gov/edtech/> for their training materials. **Training will be done locally at their school at a convenient time for all.** Certificates of Completion will be granted to teachers after the training activity, provided they have met a quality assessment activity.

- ✓ Teachers who choose an asynchronous method of instruction should contact the trainer **George Miller, or email george.miller@schools.utah.gov for instructions.**
- ✓ For our teachers who choose to study asynchronously, there are a number of "Podcasts" (5-10 minute video segments) of EDNET/IVC Faculty Training materials. They are found on the following Internet site: <http://www.schools.utah.gov/edtech/ednet/resources/podcasts.htm> . Podcasts (MPEG 4 video) will be available asynchronously to prospective teachers on their computer or MPEG4 player (iPod) for viewing and study. Those teachers studying for EDNET/IVC delivery asynchronously should fill out the "Survey Monkey Evaluation" at the conclusion of their podcast study. The website address for Survey Monkey is: http://www.surveymonkey.com/s.aspx?sm=Zh6pjaM3m2mup2RD0ldRPg_3d_3d Again, refer to the flow sheet below for detailed instructions.
- ✓ Be sure to contact Mr. Miller. He and you will assess your readiness to teach over EDNET. If all goes well, you will be awarded the EDNET Faculty Training Certificate

The Podcasts these will reside on iTunesU and at:

<http://www.schools.utah.gov/edtech/ednet/resources/podcasts.htm>

- Podcast #1- Turn to Your Partner
- Podcast #2 - The Teddy Bear Classroom
- Podcast #3 - Web 2.0 technologies in the Classroom
- Podcast #4 – The Eyes Have it....Teaching to the Camera
- Podcast #5 – The 2nd Teddy Bear Classroom
- Podcast #6 – Teaching with ELMO the Document Camera
- Podcast #7 - The IVC Classroom
